

MTD

MANUAL TOP & BOTTOM DRIVE DUAL MAST SEALER

The BestPack™ MTD Series is a Semi-Automatic Adjustable Tape Carton Sealer, engineered for the economical and effective operator-fed closure of difficult to seal cartons. The MTD Series is four belt drive, to accommodate tall unstable cartons, and comes standard with a manual self-centering mechanism that permits the operator to quickly center the carton and the tape. Dual telescopic masts allow for an extra 4" carton height extension on the upper assembly.

All BestPack units are available in our standard baked enamel finish and food grade 304 stainless steel for 21 CFR 110 compliance.
